

Sr. No.	Year	Research Paper Title	Author(s)	Problem Solved	How KhetSeGhar Improves / Differs
1	2007	<i>Procurement Models in the Agricultural Supply Chain: A Case Study of Online Coffee Auctions in India</i>	Rajesh Kumar & Ravi Shankar	Explains digital procurement models and direct buyer–seller interaction in agricultural supply chains.	KhetSeGhar applies a similar digital procurement concept to bulk groceries and introduces Village Hub inventory aggregation for housing societies.
2	2023	<i>A Small Farmer's Market Choice in the Presence of Multiple Markets: The Indian Case</i>	G. Singh, P. BIRTHAL et al.	Studies how farmers choose among different marketing channels to maximize profits.	KhetSeGhar provides an additional digital market where farmers can collectively sell directly to housing societies, reducing dependency on intermediaries.
3	2010	<i>Managing Fruits and Vegetables Supply Chains and Networks – HOPCOMS</i>	H.M Chandrashekar, Sridhara Murthy	Describes cooperative procurement and distribution of agricultural produce.	KhetSeGhar extends this idea by creating a digital Village Hub that aggregates stock and connects it directly with bulk institutional buyers.
4	2010	<i>The Impacts of Supermarket Procurement on Farming Communities in India</i>	Thomas Reardon, C. Peter Timmer & others	Examines direct procurement by supermarkets and its impact on farmers.	Instead of supermarkets, KhetSeGhar connects housing societies directly with farmer networks, giving farmers another organized sales channel.
5	2026	<i>Marketing and Value Chain Development in Agriculture: An Indian Perspective</i>	Anuja, A R and Vipin Kumar, V P	Discusses agricultural value chains and efficient marketing systems.	KhetSeGhar digitizes the value chain using Farmer → Village Hub → Housing Society , improving transparency, inventory visibility, and order management.
